

Transition with *Confidence*

PMA has 30 years of experience in dental practice sales, mergers, & partnership buy-ins. We prioritize our clients' best interests throughout the entire transition process.

50+ YEARS OF COMBINED DENTAL EXPERIENCE

About PMA Practice Transitions

We're More than Just a Typical Dental Practice Broker

Since 1995, PMA's transition consultants have prided themselves on being trusted advisors who provide personalized guidance, strategic planning, financial analysis, and ongoing support throughout the entire transition process and beyond.

Additionally, PMA's expertise extends to other facets of dentistry, as we align with industry experts to provide valuable resources for buyers and sellers alike.

Every Practice Deserves A Personal Touch

We don't just collect your relevant information and list your practice. We advocate and represent you and your entire brand, and believe there is equity in every nuance of your business.

A Partnership That Builds Worth

We specialize in helping you sell your practice for the highest possible value. Our experienced consultants have the expertise to proactively identify challenges and clear any obstacles along the way.

Performance Advisory

Our consultants help illustrate to buyers the nuances of each practice, whether it's an established office with proven cash flow or lower-performing practice with upside potential.

Transitions Simplified

We know selling and buying a dental practice can be stressful. Our consultants sit down with both buyer and seller, to alleviate any points of contention and clarify ambiguities to minimize potential downstream disputes.
